## **Translation Services Framework 05/GEN/25**

In 2006, in partnership with the DCLG, the Home Office and the DWP, the Office of Government Commerce established a framework for the supply of translation services – Translation Services Framework 05/GEN/25.

Established under EU procurement rules, the framework allows any Government body to save money on translation.

K International, assisting the UK Government with their translation requirements for over 20 years, are proud to have been awarded as a supplier on this framework.

We have the experience and expertise to provide a wide range of services to suit all your translation, multi lingual design and communication needs. We have already saved some departments up to 60% on their previous translation costs!
