[00:01] Interviewer: Hello, thank you for coming today.

[inaudible 00:10]

[00:20] Interviewer: Sorry about that, shall we get started?

[00:28] Interviewee: That's okay. [laughter] Yes, absolutely.

[00:35] Interviewer: Did you study languages at school?

[00:48] Interviewee: I studied French [00:20] at school for a few years, up until GSCE, but I secretly wanted to learn German and I also kind of wanted to learn Spanish.

[00:58] Interviewer: Do you think languages should be a bigger part of the school curriculum?

[01:10] Interviewee: Absolutely, I think we should be able to learn more than one language. I think it's going to open a lot of opportunities for us in the future to be able to work [00:50].

[01:35] Interviewer: If you could learn any language, what language would it be and what is stopping you from learning it?

[01:50] Interviewee: I would actually really love to learn Spanish. I haven't really learnt too much because it costs money [01:15] to learn it properly. And, I would like to have maybe some friends who speak the language, so it's more relatable.
